

Power Transmission Products Capabilities

Drive systems that drive real results

Every drive system in your operation affects your business. Whether it is downtime, noise levels, energy consumption or belt life, each component impacts output. That is why it is important that every drive system be designed for maximum efficiency, productivity and profitability.

The company that drives success

Continental ContiTech has a comprehensive line of power transmission belts backed by customized training and installation, superior customer service and simple, accurate tools. We provide everything your operation needs to drive the best results - from start to finish.

Capabilities

Power Transmission Products

Engineering that drives innovation

Through our research and development, we continually evolve our products to improve value. It is why we are considered industry leaders. And it is why our world-class innovations meet the increasing demands for improved drive efficiency and longer belt life, all while delivering uncompromised value.

Products that drive efficiency

Each drive system we provide is designed to maximize your power transmission dollar by reducing downtime and enhancing efficiency. Whether your operation demands traditional V-belts, banded belts or premium synchronous belts, our products are designed to work hard, smart and together in any environment.

Training that drives excellence

Whenever you need it, wherever you want it, customized training is available for your associates. From maintenance and installation clinics to in-depth training on analyzing failed systems, our distributors and sales representatives can give you the guidance needed to choose, install and maintain the power transmission products that are right for your applications.

Installation that drives uptime

From initial installation to routine maintenance checks, we offer the tools that make your job easier. Reliable, accurate and simple to use, they help keep your operation running efficiently and with less downtime – so you can be on your way to better productivity and profitability.

Customer service that drives satisfaction

Our distributors are corporately trained, and our professional application design engineers are available for consultation through your local representative. It is why our power transmission products have received an unparalleled quality rating from key OEMs.

Tools that drive capability

With the latest advancements in installation and maintenance tools, we provide cutting-edge technology for simple, accurate drive system upkeep. From our Laser Alignment Tool to Light Optic TensionRite® Belt Frequency Meters to our exclusive MaximizerPro™ Drive Analysis Software, we provide all the right tools to maximize your drive system performance.

Synchronous Belts

- › **SilentSync®** 8M, 14M
- › **Falcon Pd®** 8M, 14M
- › **Hawk Pd®** 3M, 5M, 8M, 14M, 20M
- › **Positive Drive Pd®** MXL, XL, L, H, XH, XXH
- › **Dual Hi-Performance Pd®** 8M, 14M
- › **Dual Positive Drive Pd®** XL, L, H

Traditional V-Belts

- › **Wedge TLP™** (Narrow) 3VT, 5VT, 8VT
- › **HY-T® Wedge** (Narrow) 3VX, 3V, 5VX, 5V, 8VX, 8V
- › **HY-T® Plus** (Classical) A, B, C, D, E
- › **Torque-Flex®** (Classical) AX, BX, CX
- › **FHP** (Fractional) 2L, 3L, 4L, 5L
- › **Metric** XPZ, XPA/SPA, XPB/SPB, XPC/SPC
- › **Hex** (Double V Classical) AA, BB, CC, CCP

Banded Belts

- › **HY-T® Torque Team®** (Classical) BX, CX, D
- › **Torque Team Plus®** (Narrow) 5VF, 8VF
- › **HY-T® Wedge Torque Team®** (Narrow) 3VX, 3V, 5VX, 5V, 8V
- › **Poly-V®** (Serpentine) H, J, K, L, M

Wide Variety of Polyurethane

- › **Open End Pd®** Roll length
- › **Spliced** Conveying applications
- › **Endless** Power transmission
- › **iSync** Small size power transmission
- › **Special Backings** Paz, Par, Rough Top, Foam, Rubber
